🌸 Exciting News for 2026 — Ace Creative Studio

I'm so thrilled to share that I'll be opening the Ace Creative Studio next year!

This beautiful space will allow me to create even more magic — from soft, natural family portraits to creative styled shoots.

In the meantime, I'll be sharing more of my studio work and also more of my life and the things I love over on my Instagram page, @ace\_creative\_ ✨.

It's my little space for that blog vibe — where you can follow along with behind-the-scenes, inspiration, and the creative journey as it unfolds.

Stay tuned — big things are blooming for Ace Creative in 2026! 🌱

## Why Every Family Should Book Photos Once a Year

Life moves quickly. Children grow, milestones pass, and before we know it, another year has flown by. Having family photos taken every 12 months isn't just about capturing a nice picture — it's about preserving your family's story as it unfolds.

- Kids change so fast — From missing teeth to growth spurts, they transform in the blink of an eye.
  - Celebrate milestones — Birthdays, new schools, new homes, or simply another year together.
  - Build a visual legacy — Imagine a timeline of portraits showing your family grow, year by year.
  - Forget “perfect timing” — Waiting often means missing out. Annual photos mean you never miss a chapter.
  - More than snapshots — A professional shoot captures your family at their best — natural, joyful, connected.
- ✨ Think of it as a tradition, like birthdays or holidays. Each year adds another piece to your story.

# Kids Corner

Getting kids excited for photos can be half the fun!  
Here are 3 quick questions you can ask them on  
the way to a shoot to get them giggling and ready:

- 1. If you could have any animal as a pet, what would it be and why?
- 2. What’s the silliest face you can make? (bonus points if you show me during the shoot!)
- 3. If our family were a superhero team, what would our powers be?

✨ These playful conversations help kids arrive relaxed and full of ideas — which makes for the best, most natural photos.

# Spotlight Story

💍 Family Feature: Alanna’s Surprise Proposal

What started as a simple family photo session turned into an unforgettable moment. Alanna thought she was just updating family portraits — but her partner Stevan had a secret plan.

Right in the middle of their shoot, Stevan dropped to one knee and surprised Alanna with a proposal! The laughter, the tears, and the joy on everyone’s faces made this session one I’ll never forget.

Moments like these remind me why I love what I do — sometimes the most magical memories happen when you least expect them. Congratulations, Alanna & Stevan — I’m so honoured I could capture your special day.

## 💡 Why Do Family Photos Cost What They Do?

It's a question I hear sometimes — and it's a really good one! On the surface, a family photoshoot might seem like it's just "an hour or two with a camera." But in reality, there's a whole lot more that goes into creating these memories.

Behind every gallery you receive, there's also:

- Professional equipment — cameras, lenses, lighting and editing tools that keep your photos crisp, timeless, and high-quality.
- Business essentials — insurance, software, marketing, and the systems that keep everything running smoothly.
- Time & artistry — planning your session, photographing, carefully editing, and preparing your gallery (often 10+ hours of dedicated work).
- Experience — years of learning light, posing, and connection so your photos feel natural and timeless.

✨ When you book family photos, you're not just investing in an image — you're investing in experience, creativity, and memories that will be treasured for a lifetime.
